Quality Handmade patches, appliques, custom Embroidery, and items
for every occasion - come browse our shop today!

Iron on instructions (if you requested Iron on backing)

Step 1. Position your patch on the item.

Step 2. Once you have the placement you desire use a dress makers pencil, air dry pen, chalk, etc to lightly mark the edges.

Step 3. Pick up your patch and remove the white paper backing exposing the shiny clear glue (this will not be sticky)

Step 4. Place your patch back on your item within your lines.

Step 5. Heat your iron to medium (cotton setting) and place a thin cloth over your patch now slowly iron over the patch for about 60 seconds. Never have your iron still keep it moving over the patch.

Step 6. Allow the patch to cool completely before moving it AT ALL. Just uncover it and walk away for about 25 minutes.

Step 7. Test the edges Do you see anywhere around the edges that did not quite stick? No problem turn your item inside out and place on the ironing board now iron (same as above but without the cloth)

**DON'T FORGET TO LET YOUR PATCH COOL OFF COMPLETELY AFTER EACH TIME!
PATCHES MUST BE SECURELY ATTACHED PRIOR TO WASHING.**

DO NOT PLACE YOUR ITEM IN THE DRYER AFTER A PATCH HAS BEEN ADDED UNLESS YOU SEW IT IN PLACE AS WELL. HEAT WILL REACTIVATE THE GLUE.
